

Kevlar Braided Cord

Product Name	Kevlar Braided Cord
Product Colour	Yellow
Product Specification	<p>Diameter: 3.5mm</p> <p>Average Breaking Strength: 540kgs (approximately)</p> <p>Made from continuous filament fibres of 16 plait construction. The Kevlar chemical structure is such that it is of exceptional strength with unusually low elongation. This is coupled with a good resistance to short term heat exposure.</p>
Temperature Resistance	This product will withstand temperatures of up to 220°C
